

PRIVATELY FUNDED ATHLETIC TEAMS AND CO-CURRICULAR ACTIVITIES

6631 PRIVATELY FUNDED ATHLETIC TEAMS AND CO-CURRICULAR ACTIVITIES

The Board of Education believes that student activities are an integral part of each student's education, and that these activities should be funded through a variety of sources. District funding for all athletic and co-curricular activities will be determined annually based upon available resources. Whenever necessary, either the balance or the entire cost shall be funded through other sources, which may require parent/guardian contributions in addition to the required activity fee(s).

Any fund raisers involving students that are planned by a parent/guardian group or private entity in an effort to offset costs must be conducted in accordance with the district's policy and regulation regarding student participation in fund raising.

All existing activities will be given consideration, and funding shall be determined based upon a variety of considerations, for example, but not limited to, activity costs and enrollment.

The Superintendent shall ensure that guidelines exist for privately funded athletic teams and co-curricular clubs.

Adopted: 25 August 2010
